

Digital Marketing with Generative AI – Beginner to Intermediate Level

Program Duration: 40 Days (Excluding Sundays)

Daily Schedule: 3 Hours per Day

Target Audience: Students, Beginners & Aspiring Digital Marketers

Level: Beginner to Intermediate

Mode: Offline/ Online

Course Objective

This 40-day Digital Marketing + Generative AI program is designed to build strong foundational and practical skills required to become a modern digital marketer.

Students will learn SEO, SMM, Google Ads, Email Marketing, AI Tools, Analytics, Content Creation, Automation, and how to integrate **Gen AI** into marketing workflows.

By the end of the program, students will be capable of planning campaigns, creating AI-powered content, running ads, analyzing performance, automating workflows, and presenting a complete digital marketing project.
